This course is an introduction to the principles of intuitive development. The creative power of the universe always tries to move through our intuitive channels to protect, guide, inspire and help us manifest our heartfelt goals. Focus will be on opening the intuitive gateway in order to access information - expanding perceptual insights coming through in metaphoric visual, kinesthetic or auditory channels. Areas covered will be grounding, basic meditation skills, the chakra system, reading at a distance and exercises emphasizing the sensing of energy and intuitive exchange. Expressive Art tools of movement, art, writing and sound will be utilized to help free intuitive channels and to inspire creativity. There will be practical experience doing intuitive readings for self and others.
